03. Sentiment and stance

Tone and stance are measured separately. Negative tone is the criticism load, not a threat by itself.

04. Positive, negative and neutral posts

Each post's overall tone, separated. Tone is not the same as stance: a negative post can be negative about someone other than Devendra Fadnavis — the stance line under each tone shows which.

05. Risk-band tracking

Read critical and high rows first. Criticism of a public official, satire and calls for resignation are lawful political speech and are tracked as sentiment only. Critical is reserved for threats, incitement and violence; high for hate, communal or abusive content and misinformation. Private accounts are not named.
